Letzte Aktualisierung Montag, 3. März 2008

Assyrian Women Union in Erbil visited two villages near Erbil and helped "Displaced Families" with heaters and blankets - funding by individual donors in Germany. AWU bought and distributed these things.

We got this project from "Assyrian Women Union" in Erbil in the beginning of January 2008:

Assyrian Women Union in Erbil supported Displaced Families

-  
We are now in winter and the air is cold in the region. The displaced here had left their homes and all they had, they only have with them a bag of clothes only and no more, so they need anything be offered to them.

- So we view that the provision of oil stove (heater) and blankets at this time is appropriate and very necessary for the displaced.

- Location assistance (Koysanjaq and Armuta) are villages located on the road to Arbil and Sulaymaniyah
- Number of displaced families (Christians) in the two villages 100 family.
- number of oil heaters (100) each family one.
- Number of blankets (200) each family (2) blankets.
